## CODES OF CULTURAL HERITAGE PROJECT LAUNCH

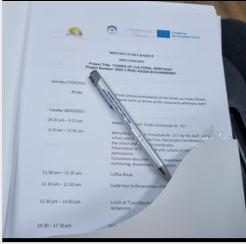

The project "Codes of Cultural Heritage" has just kicked off with its first TPM in the beautiful capital city of Romania-Bucharest, in March 27-29,2023

The team had fruitful meeting sessions and finalised the monthly working schedule, the Gantt Chart, and the dissemination plan and evaluated the first three months of work done so far. The need analysis reports were also shared with all participants. The meeting started with a lovely welcoming by the students of Scoala Gimnaziala 117. who were dressed up in their traditional costumes, holding their traditional "Colac" that is served with salt.

After the meeting, the project team visited culturally important places in Bucharest and Siania. We were lucky enough to see the Peleş Castle- a Neo-Renaissance palace of Romanian Kings, which is located in the Carpathian Mountains, near Sinaia, in Prahova County, Romania, on an existing medieval route linking Transylvania and Wallachia, built between 1873 and 1914.

During these 3 days, we witnessed the beauty of traditions, costumes, museums, palaces and music in Romania, a perfect start for a cultural heritage project.

# FIRST 4 MONTHS OF THE PROJECT

## OVERVIEW

Codes of Cultural Heritage Project is a 2-year Erasmus+ Ka-220-SCH project which is an innovative intercultural communication project involving schools, museums and art organisations from Romania, Italy, Portugal, Türkiye, Belgium and Bulgaria.

During the first four months, we have done a lot so far:

Voted for and chose the project Logo

Launched Twitter, Instagram and Facebook pages of the project

Launched the project Website

Created three surveys and prepared their result reports under WP2

Held the first Transnational Project Meeting in Bucharest
