LTTA in Braga, Portugal

The 2nd LTTA of our project took place in the picturesque city of Braga, Portugal. This time our host was "Secondary School Alberto Sampaio."

☀ Students and trainers had a school tour and then joined workshop sessions in the Museum of Archeology D. Diogo de Sousa. (Museu de Arqueologia D. Diogo de Sousa) Our activities continued with cultural visits and activities.

Attendees were also introduced with AR&VR apps that can be used in the teaching of Cultural Heritage. International student teams joined art workshops. We were lucky to visit magnificent places like Bom Jesus, which is a breathtaking UNESCO Cultural Heritage Site as well as Guimarães. Portugal was a treasure of culture, from local customs to traditional cuisine. Exploring the heart and soul of this beautiful country was priceless.

Stay tuned for more news about our project!
