JUNE 2024

Expert  
Meeting in  
VARNA  
Archaeologi-  
cal Museum

We successfully completed our LTT 4 in Varna, Bulgaria on 27-29 May 2024, with participation from all teams. The Varna Regional Museum of History (Archaeology) was our host this time. The main purpose of this meeting and workshop was to analyze the CCH-HUBS platform, share the technical piloting and its results, and thoroughly examine the system together. Overall, the platform was found to be well-organized and neat, with all the materials presented so far. It is adaptable and will be updated frequently.

We also prepared an evaluation form for the platform, and according to its results, we will prepare our impact analysis form. Everyone who uses the platform, both within and outside the partnership, can fill in this form. The form link has been shared on the platform as well. If you want to learn more about our platform, please follow this link: <https://cch-hubs.com/>

Expert Meeting  
Participants

Additionally, we had the chance to visit one of the most beautiful UNESCO World Heritage sites in the Balkans - Nessebar. We also participated in some structural workshops at the Varna Archaeology Museum and enjoyed Black Sea cuisine during dinners and lunches. We all enjoyed this fruitful time in Varna. The last and final meeting, TPM, will be held in Istanbul in September. Stay tuned.

# Dissemination Work in Germany

Our colleague Oana Topala, from École fondamentale de l'Héliport disseminated Our Project at the European Conference

“Empowering Students in the Digital Age - with Erasmus+”

6 – 8 May 2024 in Munich

The digital age is bringing elementary changes to pupils' lives at a tremendous pace: Artificial intelligence, social media, algorithms, translation apps, talking robots, new learning tools... These few keywords show that digitalisation has an impact on all areas of pupils' lives: on learning at school itself, but also on their life outside school, on their participation in society, and on understanding political contexts in Europe and the world.

In our project, by working on digital tools integration and creating the CCH-HUBS platform, we give importance to empowering students in the digital age and work hard to integrate digital tools with cultural heritage.

# Dissemination Work in Romania

Our coordinator Scoala Gimnaziala Nr 117 disseminated the project Online.

Adriana Cires, our colleague from Scoala Gimnaziala Nr 117 held an online meeting for teachers in Romania. There were also participants from the Republic of Moldova. She presented the project work done so far and also promoted the project's platform "CCH-HUBS" successfully.

About 50 people were present online, teachers from Secondary School No. 117, but also from:

- Secondary School No. 311, sector 6, Bucharest, "Nicolae Labis" Secondary School, Bucharest,
- Secondary School no. 150, sector 5, Bucharest
- "Olga Sturdza" Secondary School Holboca, Iasi
- D. D. Patrascanu High School from Tomesti, Jud. IASI
- Technical College "Gheorghe Asachi" Iasi, GPP No. 2 Slatina, Olt
- Crușeț High School, Gorj, Technological High School "Constantin Nicolaescu Plopsor" Plenita-Dolj
- Virgil Madgearu Economic High School Constanta
- "Nicolae Titulescu" High School Caracal, Olt county
- Kindergarten extended no. 2 Slatina
- "Meșterul Manole" Theoretical High School, Sălcuța village, Căușeni r., Republic of Moldova.
