CCH-HUBS PLATFORM CONTENT BEING READY

“Students’ Exciting Adventure: Codebreakers in the Trail of a Lost Artifact” Unveiled

April, 2024

More Applied Lessons from Brussels and Braga

Our student teams have recently completed their thrilling chain story, "Codebreakers in the Trail of a Lost Artifact," taking readers on an adventure from Braga to Brussels.

Filled with excitement and bravery, the narrative follows daring teens as they decode clues and uncover secrets of a lost artifact. This creative project not only showcases the students' storytelling skills but also fosters a deeper appreciation for cultural heritage and teamwork.

Students and teachers from Ecole Fondamentale de Heliport in Brussels and Alberto Sampaio Secondary School in Braga are leading a groundbreaking collaboration, piloting innovative lesson plans across borders.

From virtual classrooms to hands-on projects, this initiative fosters cross-cultural understanding while enhancing real-world learning experiences. Through teamwork and shared goals, students are gaining essential skills for success in today's global landscape, setting a precedent for collaborative education worldwide.

Integrated Applied Lesson

“The Oldest Crafted Gold in the World” Lesson in Braga

From Art Nouveau to Art Déco – Belgian Cultural Heritage

The workshop at the Boghassian Fondation in Brussels (Art Déco Museum – Villa Empain).

❖ Geometric shapes and patterns are at the centre of a creative activity that takes children to the very heart of the architectural style.

❖ The workshop brings architecture to the forefront.

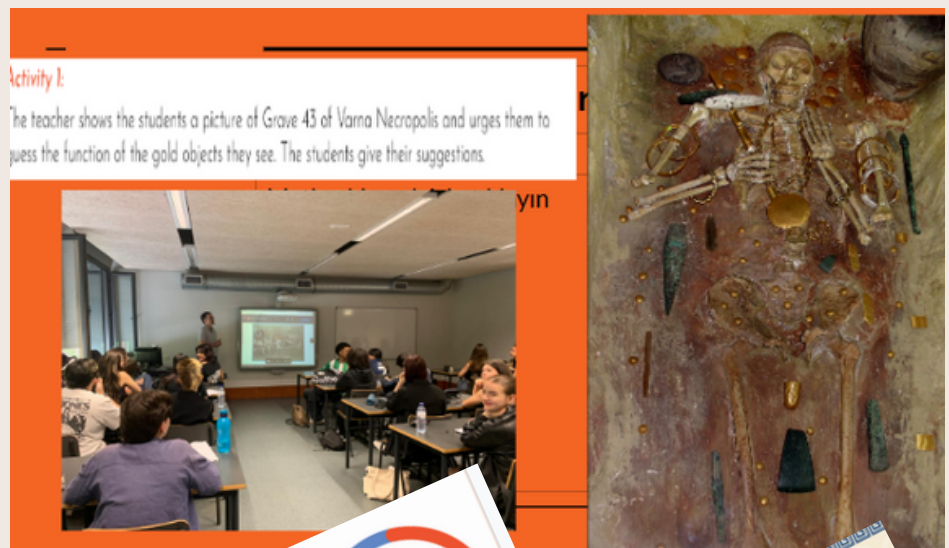

❖ During the workshop, the pupils use: gilded relief outliner, colored paper with suggestive Art Déco elements (patterns, gardens, clothes, shapes), scissors, glue and... their creativity.

❖ Students discuss about the evolution of mentalities, trends and the changing of the society.

❖ The pupils work in in interdisciplinarity and transversality. The notions of mathematics, geometry, dimensions are integrated in the workshop.

LESSON 15

Category: APPLIED LESSON PLANS FROM PARTNERS
Title: The Oldest Crafted Gold in the World

This lesson was applied to students from
Escolas Alberto Sampaio, year 11

THE HISTORY OF DONGZHI FESTIVAL

This festival has been celebrated for over than 2000 years and usually revolves around the practice of families coming together to make and eat tangyuan (glutinous rice balls), which are symbols of reunion and prosperity.

Expert Videos

We're excited to provide you with a sneak peek into the progress of our project on the CCH-Hubs platform! As we continue to develop the platform, we're thrilled to share that our esteemed partners – the Varna Regional Museum of History, Istanbul STEAM Science Technology Education Culture Art Association, and the "Moldova" National Museum Complex of Iași – have been hard at work creating engaging videos for our upcoming Expert Talks series.

Our partners have delved into a range of topics, including cultural heritage preservation, the roles and missions of museums, workshops and educational programs, community involvement, digital technologies, and the connection between tourism, agriculture, and cultural heritage. These videos promise to offer valuable insights and perspectives that will enrich our understanding of cultural heritage. Stay tuned for the next issues.
